The GM Ecotec engine, also known by its codename L850, is a family of all-aluminium inline-four engines, displacing between 1.4 and 2.5 litres. While these engines were based on the GM Family II engine, the architecture was substantially re-engineered for the new Ecotec application produced since 2000. This engine family replaced the GM Family II engine, the GM 122 engine, the Saab H engine, and ...

Belden Speed & Engineering is a small speed shop focused on preserving, restoring and increasing the performance of mid 1960's through early 1970's American muscle cars. We work on naturally-aspirated (carburetors!!) street cars that most of today's shops lack the experience or passion to repair, restore and tune them.
